SKILLS

- Frontend Development: HTML, CSS, Tailwind CSS, JavaScript
- Backend Framework: PHP, Laravel
- Soft Skills: Problem-solver, Team player, Quick learner, Organized

PROFILE

As a 3rd-year Software Engineering student at Brainster Next College, I am highly motivated to leverage my passion for frontend development and my knowledge of Laravel to contribute to innovative projects. With hands-on experience from internships and hackathons, I have honed my problem-solving, teamwork, and organizational skills. I'm excited about opportunities to grow, apply my technical expertise, and collaborate on meaningful projects that make an impact.

INTERNSHIPS

RevelApps 07/2023 - 09/2023

- Collaborated with a team to develop a project using **Laravel** and **Tailwind CSS**.
- Applied first-year knowledge to real-world tasks, ensuring daily deliverables were met.
- Communicated effectively within the team to address challenges and complete the project successfully.

PROJECTS

Solution Implementation (Year 1): QR Menu for Restaurants

- Developed a digital QR menu using PHP, HTML, and CSS.
- Worked in a team of three, guided by mentor Ivica Pesovski.
- Successfully delivered a functional and user-friendly application for restaurants.

Solution Implementation (Year 2): Cineplex Dashboard

- Built a dashboard using Python for the client Cineplex.
- Collaborated with peers to deliver a project meeting client requirements.

HACKATHON EXPERIENCE

CodeFu Hackathon (December 2024): Smoggy

- Developed a gamification project for air quality awareness using Laravel and external APIs.
- Contributed to the project as part of a dynamic, goal-driven team.

Sparkasse Bank Hackathon Financial Education Platform

- Worked as a frontend developer using Tailwind CSS to create an engaging user interface.
- Collaborated with the team to integrate the platform's features successfully.
